Material list

1. Plywood 3/4 " x 4 ' x 8 ' – 2 pcs.

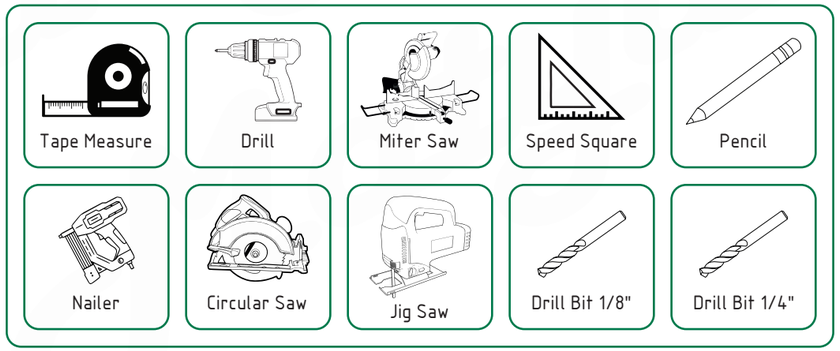

**Make sure to purchase high-quality plywood with an actual size of 48" x 96" to ensure proper fitting of all parts.*

2. Brad nails 1–1/4 " – 1 pack 🔗
3. Casters 5 " – 4 pcs. 🔗
4. Hinges 2 " – 6 pcs. 🔗
5. Folding shelf brackets 14 " – 4 pcs. 🔗
6. Flat head hex socket cap screws 1/4–20 x 1–1/4 " – 16 pcs. 🔗
7. Flat washers 1/4 " – 16 pcs. 🔗
8. Wood glue 🔗
9. Support leg 🔗

** The support leg provides extra stability and is only needed if your setup includes heavy equipment.*

**If you don't have a nail gun, you can attach the strips using #6 wood screws, 1-1/4" long (🔗). Drill clearance holes in the strips and pilot holes in the plywood to prevent splitting and ensure proper alignment.*

Plywood Cutting Layout

Materials:

- *Plywood, 3/4" x 4' x 8' – 1 sheet*

Part	Quantity	Dimensions
A	2	21-5/8" x 28-1/2"
B	2	14" x 23-15/16"
C	1	28-1/2" x 54-1/2"
D	4	1-1/2" x 6-1/2"
E	4	3/4" x 56"

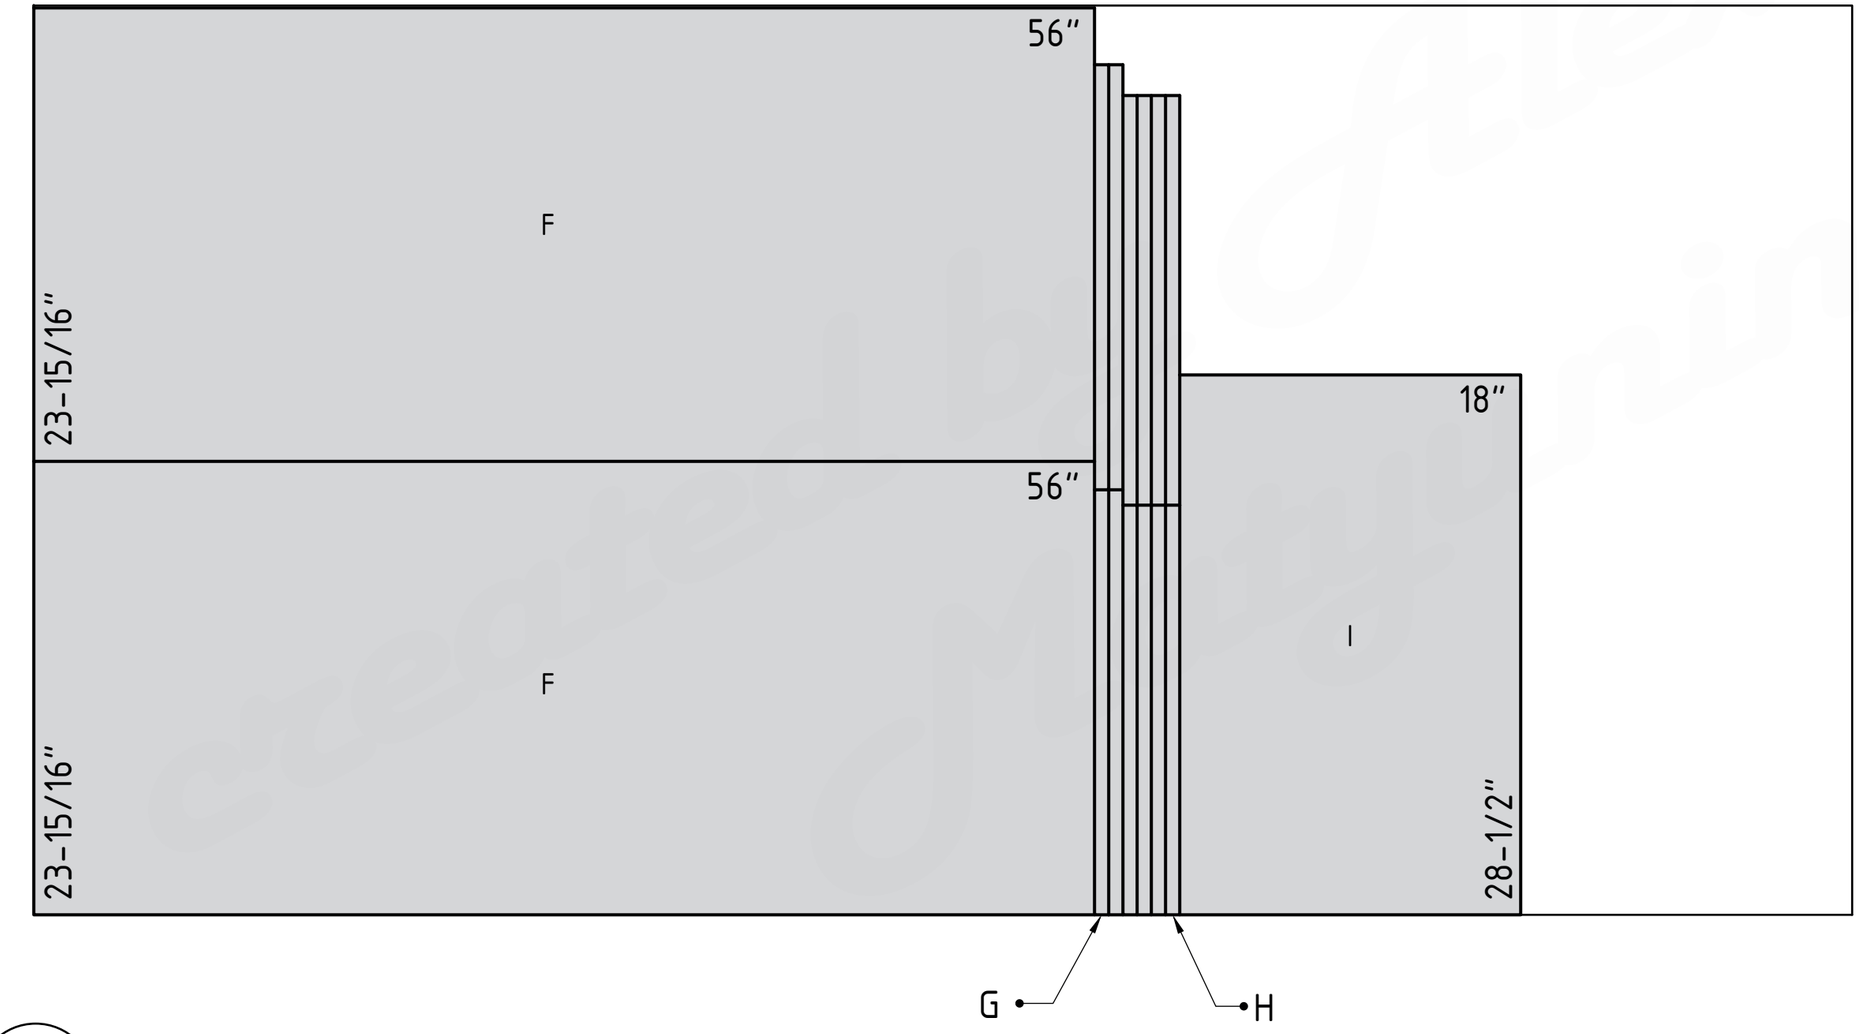

Scale 1:8

Plywood Cutting Layout

Materials:

- *Plywood, 3/4" x 4' x 8' – 1 sheet*

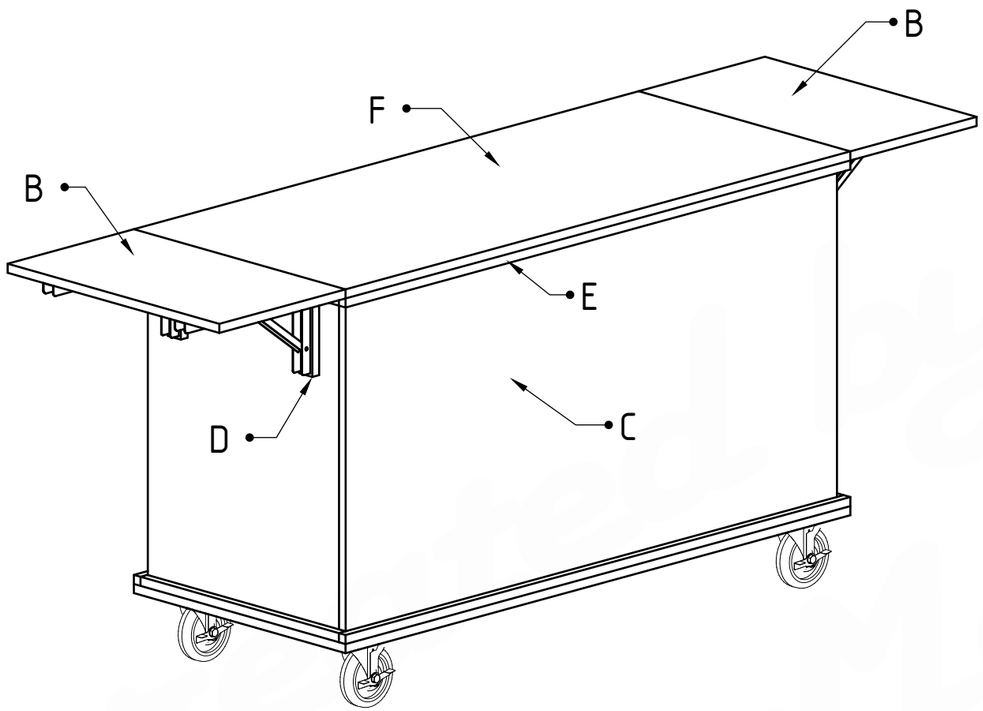

Part	Quantity	Dimensions
F	2	23-15/16" x 56"
G	4	3/4" x 22-7/16"
H	8	3/4" x 21-5/8"
I	1	18" x 28-1/2"

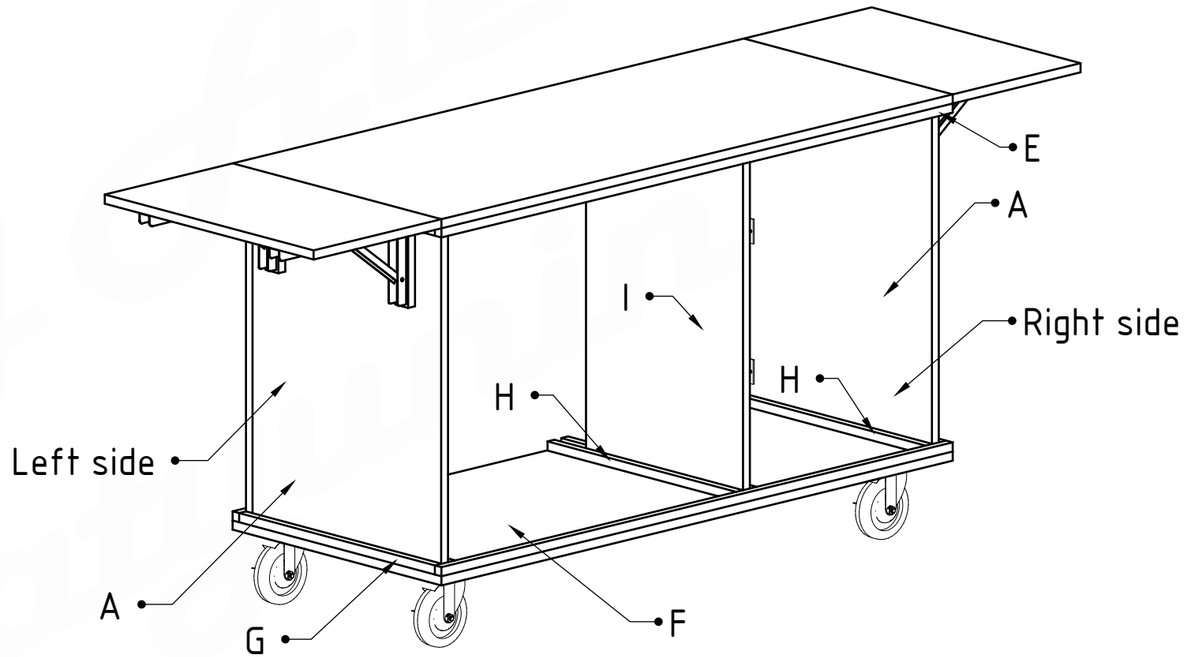

Note:
Parts F are made by cutting a standard 48" wide plywood sheet in half.
This results in two identical pieces, each approximately 23-15/16" wide, accounting for a typical 1/8" blade kerf (material lost during the cut).
This is a standard method for creating two equal parts from a full sheet.

Assembly diagram

Position the caster on the plywood, mark the holes, and drill 1/4" holes.
Attach the caster using 1/4"–20 × 1 –1/4" flat head hex socket cap screws,
inserted from the caster side. Place flat washers and lock nuts
on the underside of the plywood and tighten securely for a strong connection.

Parts:

- *Casters 5" - 4 pcs.*

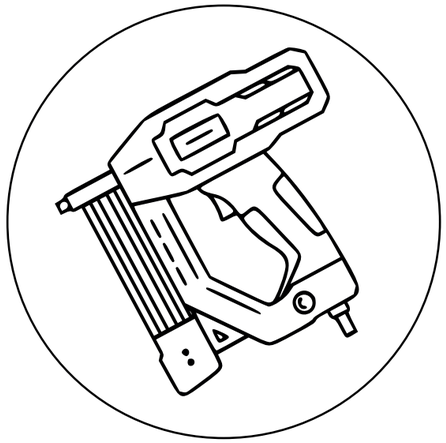

If you plan to use heavy equipment,
install the leg underneath the center of the base.
After the cart is fully assembled,
twist it clockwise until it fits snugly.

Assembly diagram

Secure the shelf brackets to the cart using screws.
Pre-drill 1/8" pilot holes to avoid splitting,
and make sure the shelves are
level with the top surface of the cart.

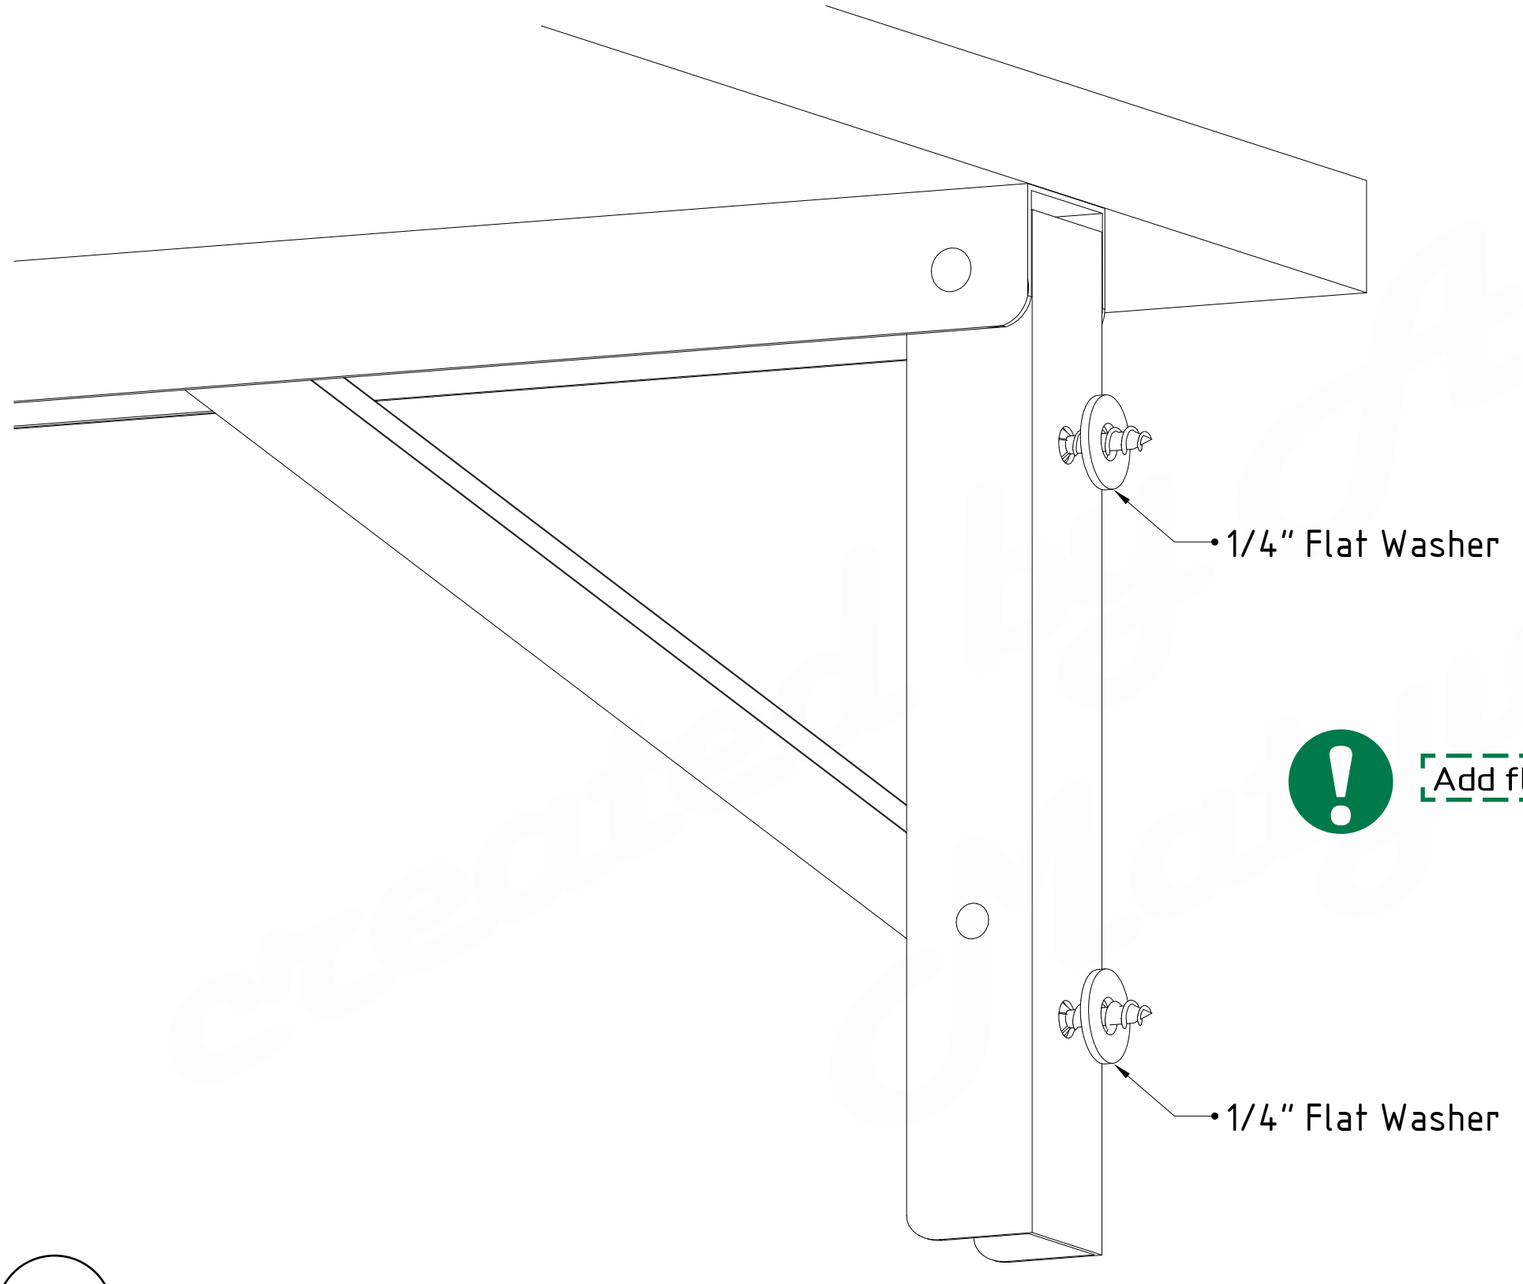

After installing the shelves, check if the top part gets stuck when removing it. If it jams and you cannot remove it, unscrew the shelves and see the solution on the next page.
Otherwise, simply skip the next page.

Connection Diagram & Parts List

*Disclaimer
This connection diagram and parts list are provided for informational purposes only.
The components and setup shown are based on commonly used configurations but may not be suitable for all espresso machines, rinsers, or water systems.

Before purchasing or installing any parts, carefully check your equipment's specifications and requirements. Always follow manufacturer instructions for compatibility and safety.

All OD connections are Push-to-Connect unless otherwise noted.

Part Number	Description	Quantity	Link
-	3/8" OD × 25 ft LLDPE Tubing	1 pc.	🔗
1	Water Dispenser Pump	1 pc.	🔗
2	3/8" OD × 1/4" OD Reducer	1 pc.	🔗
3	1/2" FNPT × 3/8" OD	2 pcs.	🔗
4	Water Accumulator Tank	1 pc.	🔗
5	3/8" OD Shut-Off Valve	3 pcs.	🔗
6	3/8" OD Union Tee	1 pc.	🔗
7	3/8" OD × 3/8" MNPT	1 pc.	🔗
8	3/8" MBSPP × 3/8" FNPT Adapter	1 pc.	🔗
9	3/8" OD × 1/2" FBSPP	1 pc.	🔗
10	3/8" OD Check Valve	2 pc.	🔗
11	1/4" Hose Barb Quick Disconnect	2 pc.	🔗

Additional Tools & Optional Materials

Part Number	Description	Quantity	Link
-	Tube Cutter	-	🔗
-	3/8" OD 90° Union Elbow	-	🔗
-	PTFE Thread Seal Tape	-	🔗
-	1/2" Hose Clamps For Hose Barb Quick Disconnect	-	🔗

Painting & Finishing Recommendations

Step	Recommendation	Link
Surface Preparation	Sand the surfaces with an orbital sander and 120-grit sandpaper, then clean off all dust before applying primer or paint.	🔗
Primer	Apply Rust-Oleum RockSolid Deck Start Wood Primer to ensure proper adhesion and prevent tannin bleed-through.	🔗
Topcoat Paint	Apply DWIL Outdoor Wood Paint – a waterborne, UV-resistant topcoat that protects and enhances outdoor wood surfaces.	🔗
Optional: Oil Finish	For a natural look, apply Vermont Natural Coatings Exterior Hydro-Oil Primer to protect outdoor wood surfaces.	🔗
Chalk Paint Option	For minimal prep and a decorative finish, Country Chic Paint (all-in-one with primer/topcoat) works well outdoors.	🔗

*Note: All links provided in this items list redirect to amazon

Additional Tips:

- Avoid painting in extreme temperatures or high humidity to ensure proper drying and durability.
- A primer is highly recommended, especially on raw or weathered wood – oil-based variants offer superior tannin-blocking properties.
- For outdoor furniture, choose weather-resistant, UV-stable paints like Rust-Oleum Painter's Touch for longevity

Color & Style Recommendations:

- Classic Cafe Look – Black or dark brown cart with natural wood accents. Matches stainless steel equipment.
- Modern Minimalist – White or light gray with matte finish. Clean and simple, fits well for indoor carts.
- Industrial Style – Matte black with metallic fittings (steel, brass). Adds a professional espresso-bar vibe.
- Rustic / Natural – Clear wood stain or light oak finish to highlight wood texture. Eco-friendly, warm appearance.
- Pop of Color – Bold colors (red, green, navy blue) for carts used in events or outdoors. Helps attract attention.
